Games with a Y under Hdcp are games in which gross score will be counted toward handicaps.

General rules about scoring: Unless specified otherwise, all competition in Couples League is net score. Here is how net scores are computed.

In 2-Person games

- **two balls are scored**, the combined gross score is reduced by the combined handicaps of the two players.
- **one ball is scored**, that gross score is reduced by ½ of the combined handicaps of the two players.

In 4-Person games

- **four balls are scored**, the combined team gross score is reduced by the combined handicaps of the four players.
- **two balls are scored**, the combined team gross score is reduced by ½ of the combined handicaps of the four players.
- **one ball is scored**, the combined team gross score is reduced by ¼ of the combined handicaps of the four players.

In 4-Person aggregate games

- the net score for the team is the combined net scores for the two couples. Those net scores are figures as described above for 2-Person scoring.

Note: If the number of golfers signed up for any given Friday in the Summer is fewer than 12, the game designated for that date WILL NO BE PLAYED. No game – no chits. Tee times will still be valid for playing golf but play that day will be just for fun.
